BUILDING DETAILS

Waterworks Toronto is a premium development that is a condominium, commercial retail center, and park located between Queen West to the north and King West to the south.

The original art deco building dated back to 1932 and it has been wonderfully preserved and reshaped into the new building that appears to have two modern towers rise up from the original structure.

Property Details: The complex is home to a new YMCA facility and the popular Waterworks Food Hall.

This unit in particular occupies the northwest corner of the Waterworks and has its own entrances and patio with great visibility from the street and for pedestrians. The 2-storey unit has a beautiful mezzanine that looks over the main cafe and creates a great atmosphere.
