BUILDING DETAILS

This location faces south-west and gets a ton of sunlight making it a great place to work and maintain staff. The kitchen has room to move and there is ample room to prep and for storage in the back area of the business. There is an additional hood system aside from the main 9-foot commercial hood that houses the double stack Garland pizza ovens and two deep fryers

Property Details: This was originally two separate commercial units that have since been joined together to form what is now one combined unit. The power received a big upgrade for this business and is 200-amp providing enough power for even more equipment.

There is an opportunity to increase the menu items and expand up it. There are very few restaurants in town or in the general area giving you a captive audience.
